DMS INDUSTRIES

SAFE. RELIABLE. ENGINEERED.

DMS INDUSTRIES

About Us

DMS Industries is a UAE and Egypt-based provider of electrical and data center infrastructure solutions, delivering engineered products and integrated systems to commercial, industrial, infrastructure and mission-critical projects across the MENA region.

By combining our own manufacturing capabilities with a carefully selected network of strategic manufacturing partners, DMS provides customers with flexible sourcing options, from cost-optimized solutions to premium European systems, all managed through a single trusted partner.

Our approach allows us to deliver technically compliant, commercially competitive and project-focused solutions tailored to each client's specifications, budget and project requirements.

Vision

To become the preferred regional partner for electrical and data center infrastructure solutions, connecting world-class manufacturing with engineering excellence to support the development of critical infrastructure across Europe, the Middle East and Africa.

Mission

Our mission is to simplify complex infrastructure procurement by providing reliable engineering support, trusted manufacturing partnerships and end-to-end project solutions. We are committed to delivering high-quality electrical and data center infrastructure that balances performance, compliance, lead time and commercial value while building long-term partnerships with consultants, contractors, developers and end users.

Who we are

We work closely with consultants, contractors, EPC companies, developers and industrial clients to deliver complete electrical and data center infrastructure packages through a combination of:

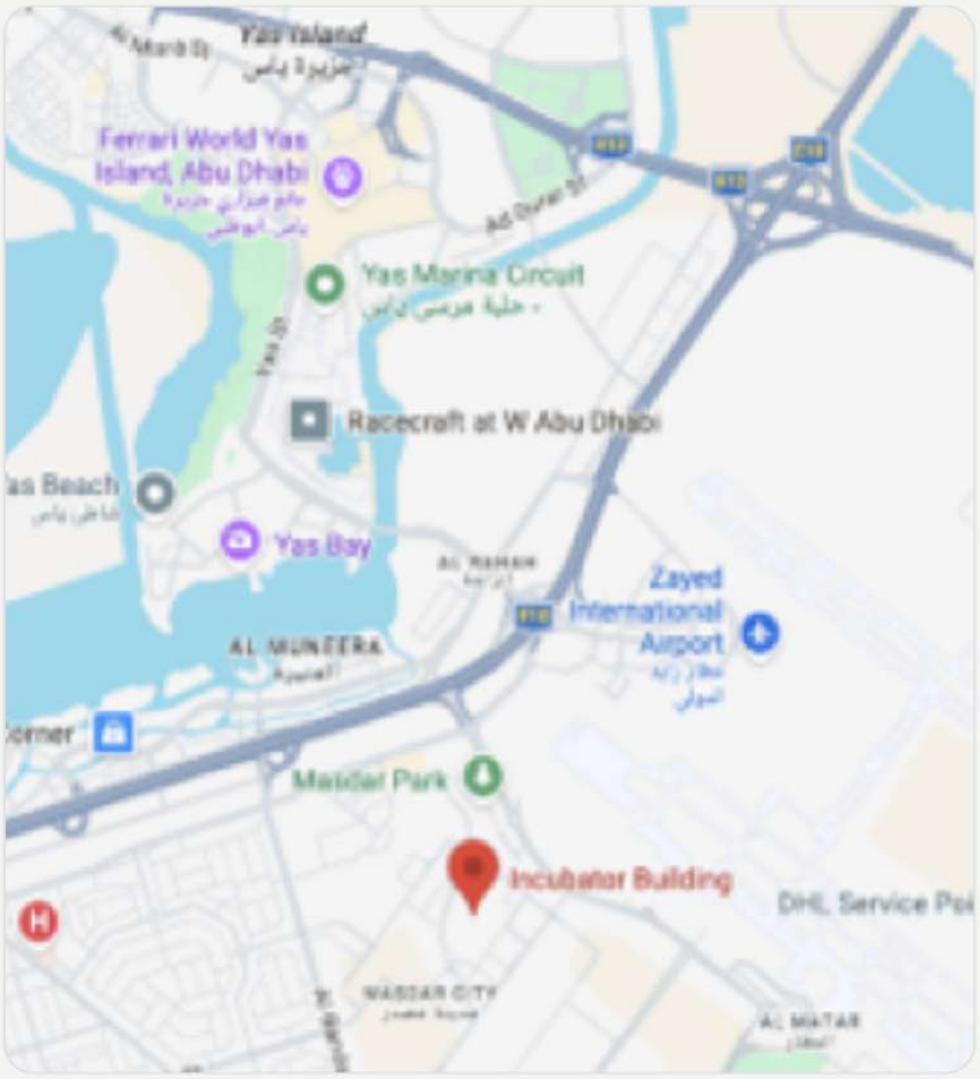

- **Engineering support**
- **Manufacturing**
- **Global sourcing**
- **Project coordination**
- **Quality assurance**
- **Regional commercial support**

> *Our flexible sourcing model allows us to match every project with the most suitable manufacturing partner based on technical specifications, certifications, commercial objectives and delivery requirements.*

DMS Industries | UAE | Egypt | MENA

DMS INDUSTRIES

Regional Presence

United Arab Emirates

Regional Headquarters

The UAE office serves as **DMS**' regional headquarters, leading business development, project management, technical consultation and commercial support while coordinating our global manufacturing network across the GCC, Europe, Africa and the Levant.

Egypt

Engineering & Regional Operations Hub

The Egypt office serves as **DMS**' engineering and regional operations hub, supporting project engineering, manufacturing coordination, supply chain management and regional project execution while providing strategic access to our manufacturing capabilities and logistics network across Africa, the Levant and the Middle East.

PRODUCT RANGE

DMS INDUSTRIES

Junction Box Series

DMS INDUSTRIES *powered by* HENSEL

Eight ranges, from normal environments to explosive atmospheres, fire and submersion.

DK SERIES

IP 66

For harsh environmental conditions. With and without terminals; elastic membranes or metric knockouts.

RK SERIES

IP 66

With terminal blocks and elastic membranes.

KF SERIES

IP 66 / 67 / 69

Weatherproof, for unprotected outdoor installation. With and without terminals; metric knockouts.

WP SERIES

IP 66 / 68 / 69

Submersion up to 20 m, 168 hours waterproof. Encapsulating for extreme applications; with terminals, metric knockouts.

KX SERIES

IP 66

For use in potentially explosive atmospheres. Suitable for Ex zone 2 and 22, with terminals.

FK SERIES

IP 66

Intrinsic fire resistance E30/E60/E90, insulation integrity PH 120. With terminals.

DE SERIES

IP 55

For normal environments and protected outdoor use. With or without terminals; elastic membranes.

DP SERIES

IP 54

For cable trunking and conduit installation. Cable entry via removable grommets.

IP = Ingress Protection rating (dust and water resistance)

JOINT CONNECTORS

PLUGGABLE CONNECTORS

JBOX CONNECTOR SOLUTIONS

POWERING A

SMARTER, SAFER & GREENER TOMORROW

Integrated power and energy solutions
for a more resilient world

UPS SOLUTIONS

Uninterrupted Power
for Mission-Critical Applications

- Wide range from 1 kVA to MW
- High efficiency & reliability
- Modular and scalable design
- Flexible for various applications
- Advanced monitoring and management

STABLE
POWER
FOR A
CONNECTED
WORLD

COOLING & MODULAR DATA CENTER

Efficient. Scalable. Future-Ready.

- Precision cooling solutions
(in-row, room, rack, outdoor)
- Modular and containerized data centers
- Integrated power, cooling and IT infrastructure
- Rapid deployment and flexible expansion
- Ideal for edge, enterprise and hyperscale

MODULAR
INFRASTRUCTURE
FOR A
DIGITAL FUTURE

BATTERY SOLUTIONS

Reliable Energy Storage
for a Continuous Tomorrow

- Wide range of VRLA and lithium batteries
- High performance and long service life
- Designed for UPS, telecom, renewable energy and industrial use
- Stable and safe operation
- Multiple capacities to meet diverse needs

ENERGY
STORAGE
THAT KEEPS
YOU MOVING

STRONGER COMMUNITIES
A BRIGHTER TOMORROW

POWERING A SMARTER, SAFER & GREENER TOMORROW

INTEGRATED RENEWABLE ENERGY & E-MOBILITY SOLUTIONS
FOR A SUSTAINABLE FUTURE

SOLAR INVERTER SOLUTIONS

MAXIMIZING SOLAR POTENTIAL

- High conversion efficiency
- Smart monitoring & control
- Commercial & industrial applications
- Reliable grid integration
- Scalable for future growth

TURNING
SOLAR ENERGY
INTO A BRIGHTER
TOMORROW

ENERGY STORAGE SYSTEMS (ESS)

STORAGE TODAY. A MORE
RESILIENT TOMORROW.

- Peak shaving & load shifting
- Backup power capability
- Renewable energy integration
- Grid support services
- Optimized energy management

STABLE ENERGY
FOR STRONGER
BUSINESSES AND
COMMUNITIES

EV CHARGING SOLUTIONS

DRIVING A CLEANER,
GREENER TOMORROW.

- AC & DC fast charging options
- Fleet charging support
- Smart monitoring platform
- Reliable charging performance
- Future-ready infrastructure

PERFORMANCE.

DMS INDUSTRIES

DISTRIBUTION BOARDS / DATA RACKS / CONTROL PANELS

RELIABLE ELECTRICAL SOLUTIONS

FOR A SAFER, SMARTER TOMORROW

DMS Industries designs and builds high-quality distribution boards, data racks and control panels for industrial, commercial and infrastructure applications.

DISTRIBUTION BOARDS

Safe, efficient and reliable power distribution for your facility.

DATA RACKS

Structured cabling and network infrastructure, built for performance and growth.

CONTROL PANELS

Intelligent control and automation for greater efficiency and uptime.

BUILT FOR INDUSTRY. DESIGNED FOR TOMORROW.

PROJECT REFERENCES

TRUSTED ACROSS MENA

From landmark infrastructure to iconic developments, our solutions power projects that build stronger, smarter and more connected communities.

INTERNATIONAL PROJECTS (AFRICA & MIDDLE EAST)

- El Owaynat Power Plant – Algeria
- Water Treatment Plants – Algeria
- Procter & Gamble – Nigeria (Manufacturing Expansion)
- Cement Omran – Yemen (Cement Plant Project)
- Residential Villas Complex – Chad, Africa

INFRASTRUCTURE & MEGA PROJECTS

- Greater Cairo Metro – Line 3 (Phase 1)
- Giza North Power Plant
- Kureimat Power Plant (Phases 2 & 3)
- El Tebbin Power Plant
- El Gabal El Asfar Wastewater Treatment Plant
- New Administrative Capital – Egypt (Multiple Projects)

INDUSTRIAL & MANUFACTURING

- Procter & Gamble – Egypt (Manufacturing Expansion)
- Nestlé Factory – Extension
- Pfizer Egypt Factory
- AstraZeneca Pharmaceutical Factory
- Nissan Automotive – Egypt
- Mansour Automotive (Chevrolet) – Egypt
- El Sewedy Cement Factory
- Eastern Company Factory

AVIATION

- Cairo International Airport – Terminal Building 3 (TB3)
- Cairo International Airport – Control Tower
- Cairo International Airport – Hall No. 3
- Sharm El Sheikh International Airport
- Hurghada International Airport & Expansion
- Borg El Arab International Airport
- Luxor International Airport – VIP Lounge

HOSPITALITY

- Four Seasons Hotel – Nile Plaza, Cairo
- Four Seasons Resort – Sharm El Sheikh
- Four Seasons – San Stefano, Alexandria
- Fairmont Heliopolis – Cairo
- Marriott Hotel – Cairo (Renovation)
- Sofitel El Gezirah – Cairo
- Sofitel Old Cataract – Aswan
- Mövenpick Hotels – Sharm El Sheikh, Aswan, Luxor & Heliopolis
- Conrad Hotel – Cairo & Sharm El Sheikh (Renovation)
- Grand Rotana Resort – Sharm El Sheikh

GOVERNMENT & INSTITUTIONAL

- Grand Egyptian Museum
- Bibliotheca Alexandrina
- New Egyptian Parliament
- Ministry of Communications Building – Cairo
- Al Azhar Park – Cairo

COMMERCIAL & CORPORATE HEADQUARTERS

- Smart Village – Multiple Buildings & Data Centers
- Vodafone Egypt Headquarters
- IBM Egypt Headquarters
- EFG Hermes – Head Office
- Raya Holding – Smart Village
- TE Data (Telecom Egypt) – Smart Village
- Nile City Towers – Administrative Buildings
- Pyramids Heights Business Park

ONE PARTNER FOR INFRASTRUCTURE.
